

Certificate of guarantee Tec 7

Even when our MS-products are only ca. 15 years on the market, a functional guarantee of 10 years can be given on the basis of other MS-products. This guarantee involves for example resistance, flexibility and adherence to appropriate surfaces.

Please take into account that Tec 7 needs to be applied in a professional way (professional use and processing are important), if not, the period of guarantee mentioned above, can be reduced. The period of guarantee can also be reduced because of other influences, like e.g. damage caused by chemical or physical circumstances.
